

WESTON® Electric Food Mill

Puree, Strain or Mash – Say goodbye to tedious cranking. The one of a kind Weston® Electric Food Mill redefines the traditional food mill by doing the hard work for you. Easily separate skin and seeds from the flesh of cooked fruits and vegetables with the push of a button.

Included Straining Discs – Three stainless steel discs are included for different tasks and to provide greater control over the texture of your food. Fine, medium and coarse for milling tomatoes, berries, potatoes, apples and more.

Make Soups, Sauces and More – Use your new food mill to create delicious pureed soups, baby food, fresh pasta sauce, applesauce, fluffy mashed potatoes and more.

Convenient Features – The Weston® Electric Food Mill has a spacious two- quart capacity for efficient use. The motor features forward and reverse operation for easy processing. The interlocking chute design prevents splatter. Non-slip bowl rests on the bottom of the mill ensure it fits securely on any bowl up to 10 inches in diameter.
